

## PROFILE

I am a foreign Exchange enthusiast, a market analyst, and a trader. I am a swing trader and a scalper at other times. I analyze the forex market with Inner Circle Trader(ICT) techniques and the techniques which I deduced from ICT. My main pairs are EURUSD and XAUUSD which have been profitable to me and I have been flexible in trading them

## EXPERIENCES

### Currency pairs

XAUUSD

On the higher timeframes(weekly and daily) my bias was bearish overall, due to price delivery and market structure at that point, I took the trade as a swing. A total of 1k pips was made from the trade

### Currency pairs

EURUSD

I used the same bias I have for XAUUSD for EURUSD due to their market correlation, and that is because they are both paired against the dollar. I made 220+ pips from that trade

## Skills
