

# MASTER TINKER

FOREX TRADER

## EXPERIENCES

### PROFILE

I am a forex trader, my analysis is based on ICT concept. Mostly on intraday sometimes swing trades. Trade with two sessions in London and New York. I have the most experience with the GBPUSD pair

#### Currency pairs

*GBPUSD*

I was able to spot a bullish trend on the higher timeframe then check the lower timeframe during the London session to spot an OB with a market shift and was able to make 13k on the trade with total of 133 pips

#### Currency pairs

*XAUUSD*

I related with the dollar because the dollar was bearish, I had the option to recognize a bullish tendency and with the assistance of the CPI, news give me around 220 pips

### Skills

Technical analysis, Fundamental analysis
